

<p>Math Goes Shopping</p> <p>Shall we buy a big carton of juice or a small one? Let's buy a two-litre one. Do you see the 2L on it? Please pass it to me.</p> <p>Hey, which shampoo feels heavier to you? Let's look at the numbers on them and see which one is bigger.</p>	<p>Math in the Kitchen</p> <p>Please bring me four potatoes from the bag.</p> <p>Could you pour the water into that bowl for me? Do you think it will hold it all?</p> <p>Help me put the Smarties on the cake. Let's put a red one and then two greens, a red one and then two greens, a red one and then . . .</p>
