

## The Flyer as a Learning Tool

Here are fun things for you and your children to do with all those shopping flyers.

- Find products that do not go in the kitchen.
- Find products that go in the fridge.
- Choose a product and think of a word that rhymes with it.
- Pick a letter. Which products start with that sound?
- Which things do we eat for breakfast? For lunch? For dinner?
- Count the items in pictures that show more than one.
- With older children, give a short shopping list and ask them to write a price next to each item.

Can you think of other activities that help children learn about shopping and money?
